Hello everyone,

Today, I want to address the topic of toxic language and behavior. I'm aware that the term 'toxicity' is frequently used, sometimes inaccurately, to describe toxicity in the workplace or in personal relationships is a serious matter that can have long-lasting psychological effects on individuals.

From monitoring washroom breaks to passing judgment on individuals for taking their allotted leaves, to engaging in surveillance on employees, to providing toxic people, in my opinion, are individuals who are either insecure or are suffering from some kind of superiority complex. They derive pleasure from making what they don't understand is, 'What goes around, comes around'. It will come back to you, for sure.

So, this is for everyone out there: Even if you were treated badly, you must break the chain of bad behaviour. Even if you think, you are better than others.

Try being kind!! Acchha lagta hai
Education is life itself!
Thanks a lot for saying this very very important point! We Indians are too tolerant of bad behaviour. Needs to change.
